Lab 5 Part A

Step 15: Take a screenshot of your Nano window showing the SnapshotID above and include it in your lab report.

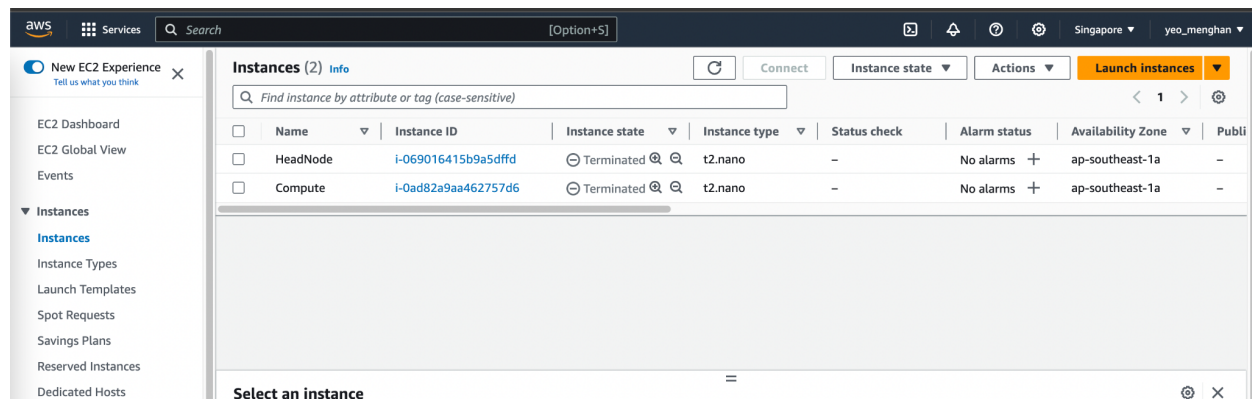

Step 25.1: Take a screenshot of your Terminal window showing the directory listing of all the files above and include it in your lab report.
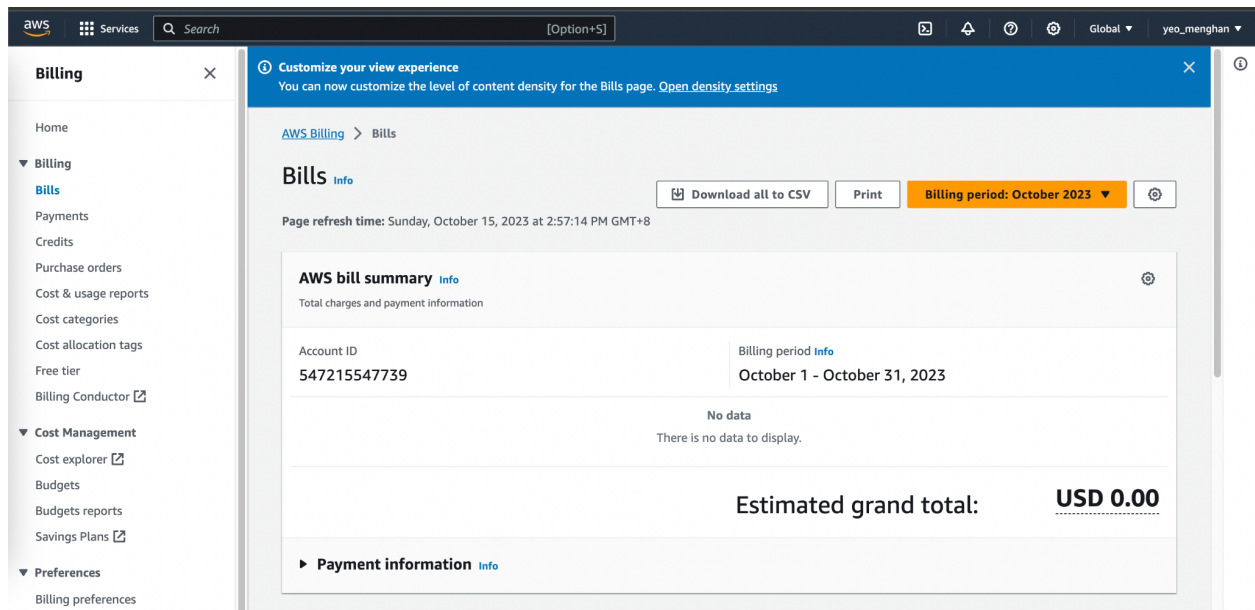

Step 25.2: Take a screenshot of the notification email from AWS saying the job is done and include it in your lab report.

Step 34: Once you have made sure that you do not have any running instances, take a screenshot of your EC2 dashboard, and include it in your lab report.

Step 36: Take a screenshot of the screen above to show the charges and include it in your lab report. It is fine if there are no charges listed yet.

Step 37: Take a screenshot of the screen above to show the charges and include it in your lab report. It is fine if there are no charges listed yet.
